Hello Emily,

This is in response to the complaints filed to your agency regarding the accidental spill on Indian School on Feb. 8th, 2016 at approximately, 1:05pm. I spoke with Jim Manos this morning after your call. He would like for me to go ahead and send you the timelines and evidence of clean up, see (photos) attached.

1:05pm – Driver notified his supervisor, Supervisor contacted Terry Burt who immediately dispatched to the site with a bucket loader, shovels, and brooms.

1:10- spoke to an environmental consultant regarding next steps

1:15pm- called the street sweeper, they stated they would send an emergency response out to the site by end of day.

1:30- Notified Senior Management Team, Owners and CFO, Jim Manos

1:45pm – See attached

5:10pm – Street sweeper arrived

5:45pm – see attached

Jim and Billy contacted Paul immediately and they ceased the movement until Thomas Road was opened on Wednesday, 2/10/2016. We will use that route for this activity moving forward.

Please let me know if I can further assist, thank you.
